Paula Cademartori

SPRING/SUMMER

Collection 2018

Paula Cademartori's new collection reflects the artisanal opulence of Made Italy with a free, creative and unconventional spirit that plays the game of contemporary glamour in a unique mix of decorations and inspirations swinging from boho to gypsy to cowgirl style.

The carry-over models and the fresh pieces include daytime silhouettes and refined evening bags with the addition of the new Jill clutch that revisits the iconic Cocca sporting a more subtle and elongated shape.

Introduced with the summer precollection, the MONOCOLORE theme drenches calfskin in fresh white, dark powder blue, black and mascavo sugar, while solid hues like Memphis orange and bubble gum saturate the LADY LACE selection, embellished with inlays and laser workings that pair the lace effect with the metal buckle in polished silver.

Leather meets denim in the BOHO models, singled out for the asymmetrical patchwork of contrasting geometries combined with the gold-finished buckle. Mixed materials also characterize the GIPSY mood, where calfskin pairs with multicolor thread-embroidered straw detailed with the classic or black Plexiglas buckle.

The LOVE theme draws together calfskin, lizard and suede in monochrome and polychrome interpretations, distinguished by elegant inlays, stud appliqués and the new strap design featuring a heart-shaped buckle in resin with mélange black and turquoise effects – debuting on the Twiggly, Arianna and Twi Twi bags.

The OPULENCE clutches reveal sparkling embroideries of flower petals or geometric patterns on three different models enriched with a rhinestone-studded jewel buckle. Instead, the shapes from the GLOSSY line get a boost from tricolored tubular Plexiglas barrettes, geometric motifs engraved on sheer surfaces and exclusive materials that evoke turquoise stones.

The evening shines with the METALLIC RAINBOW models in mirrored calfskin, available in sparkling gold or in the multicolor options, respectively personalized with the tinged buckle or the rhinestone-studded buckle.

The mixing, colors and details of the bags also distinguish the shoe collection, expanded with a new series of silhouettes including wedges, mules and various heel heights, from the 70 mm to the chunky 50 mm and 90 mm.

Luxurious motifs of petals and pearls, signature signs of Paula Cademartori's style, alternate with crystal decorations, turquoise-finished studs and painted heart-shaped micro buckles.

The selection sports stitched calfskin and combinations with denim and kidskin, as well as multicolor suede and straw surfaces adorned with details in leather and thread-embroidered raffia.

The evening and red-carpet style bring out metallic laminates with pearl appliqués, gold iridescence embellished with maxi-rhinestones and opulent flower patterns highlighted by transparent or colored crystals on delicate satin.
